

Ashna Samson . Jarvis Consulting

Motivated Computer Science undergraduate specializing in Software Engineering with a strong foundation in software development, AI model optimization, and UX/UI design. Proficient in Java, Linux, SQL, Python, Git, cloud technologies, and collaborative engineering practices applying agile methodologies. Experienced in developing user-centered applications, delivering high-quality code, and managing technical projects. Holds multiple professional certifications and completed advanced academic projects showcasing strong technical capabilities.

Skills

Proficient: Java, Linux/Bash, RDBMS/SQL, Agile/Scrum, Git, MATLAB, R/RStudio, C, Python, Figma, Adobe XD, draw.io, Verilog, RISC-V, Assembly, Arduino

Competent: Docker, Junit, Eclipse, Google Cloud Platform, Azure, Kubernetes, JavaScript, HTML, CSS, React.js, Node.js, Gradle

Familiar: PostgreSQL, PowerBI, MongoDB, AWS, Photoshop, REST APIs

Jarvis Projects

Project source code: https://github.com/jarviscanada/jarvis_data_eng_AshnaSamson

Linux Cluster Monitoring Agent [GitHub]: Developed a monitoring agent to collect and analyze hardware specifications and real-time resource usage across multiple Linux nodes. Automated data collection and storage in a RDBMS PostgreSQL database using Bash scripts, Docker containers, and crontab for scheduled tracking. (Bash, PostgreSQL, Docker, Git, Crontab)

Highlighted Projects

RIMA Recipe & Ingredient Management App [GitHub]: Developed a recipe management prototype with ingredient-based search and browse recipes. Designed UI for a user authentication flow, registration module, and personalized dashboard functionality.(Java, SQL, GitHub)

SmartShoppers: E-commerce Platform [GitHub]: Programmed an online platform with several design patterns for shoppers and sellers to browse and effortlessly purchase at their convenience. Designed UI for authentication, registration, and user dashboard.(Java, Swing, JUnit, Eclipse, GitHub)

MelodiaMatrix: Capacitive Piano with LED Matrix [GitHub]: Created a capacitive piano prototype integrating tone generation, the Arduino Due microcontroller, and LED animations based on user input. Enhanced user interaction by synchronizing audio output with dynamic LED visual feedback.(C, Arduino Due, Arduino IDE, GitHub)

Professional Experiences

Data Engineer, Jarvis (July 2025-present): Developing and deploying industry-level projects using Agile/Scrum methodologies, focusing on scalable data solutions and efficient project delivery.

Software Engineer: AI Training Data, Outlier.ai - Remote (May 2024-present): Develop and optimize AI training data pipelines to enhance model accuracy, data quality, and user experience.

Software Programming Instructor, SV Robotics Academy - Remote (July 2021-Mar 2022): Designed and delivered project-based courses on robotics and programming using Python, C, MATLAB, and Java. Increased student engagement by 80% through interactive lessons, live demos, and practical coding exercises.

UX/UI Graphic Designer Intern, Tweebaa Inc. - Remote (Mar 2022-June 2022): Translated user research into actionable design solutions, improving product usability. Created wireframes, mockups, and journey maps to iterate on product concepts using Figma and CAD tools.

Assistant Centre Manager & Math Instructor, Mathnasium The Math Learning Centre (Sept 2020-present): Managed daily operations, payroll, scheduling, and mentoring staff while ensuring high client satisfaction. Designed personalized learning plans, leveraging analytics to improve student performance. Utilized tools such as QuickBooks, Google Suite, Radius, and MS Office to streamline operations.

Education

York University - Lassonde School of Engineering (2018-2024), Bachelor of Science, Computer Science - Focus in Software Engineering - User Interfaces - Software Design - Software Engineering Requirements - Embedded Systems - Signals - Algorithms - Data Structures - Operating Systems - Digital Logic - Control Systems - Systems Refinement

Notre Dame Catholic Secondary School (2014-2018), High School Diploma, None - Honour Roll graduate with over 90% overall - Recipient of OSSD & FSL Diploma, French & Math Award

Miscellaneous

- IBM DevOps and Software Engineering Specialization - Coursera - [June 2023]
- IBM DevOps, Cloud, and Agile Foundations Specialization - Coursera - [May 2023]
- UX/ UI Design: Google UX Design Specialization - Coursera - [May 2023]
- Front End Development: Meta Front-End Developer - Coursera - [Nov 2024]
- Data Engineer Associate [DP-203] - Microsoft - [Enduring]
- Earned Certification Badges: Credly - <https://www.credly.com/users/ashna-samson>
- Cooking & Baking
- Listening to music
- Video Games
- Watching Shows/Movies
- Exploring diverse cuisines
